One month.....	1.25
One week.....	.35

Subscriptions by mail must be paid for in advance.

TEN DOLLAR REWARD
A reward of \$10 will be paid for information that will lead to the arrest and conviction of parties stealing the Bonanza from premises of subscribers.

TO SUBSCRIBERS
Parties who do not receive their papers, or who have any cause of complaint, will oblige by notifying this office.

Entered at the Postoffice in Tonopah at second class matter.

EDITORIAL COMMENT.

IN SELF PRESERVATION.

There is a question which the American Congress will soon have to settle. We in this country have for a full century been insisting that free speech and a free press must be kept inviolate. This grew out of the thought that however much the American people might differ in opinion, there was below all a love of country which was universal and the differences would be in methods only, or in details; that on all main questions Americans would be Americans, "for country when right, but right or wrong, for country." But things have changed, says Goodwin's Weekly.

A woman harangued an audience here on Sunday last. She inveighed against all law and all governments; inveighed against the marriage tie, the marriage relation; against the necessary decent restraints of society; and while she deprecated any unnecessary violence, it was clear from what she said that she expects that those who feel as she does would yet have to wade through a sea of blood to accomplish what they have in view. It is a clear case that such a perverted soul is a public enemy; that all her teachings are a crime, violence, misrule, that lead straight up to chaos for society and disregard for all the inherent rights of individuals. The question is, how can such a situation be met. As we look upon the matter, self-preservation is as much the inherent right of a nation as of an individual. These people are openly proclaiming their purpose to destroy this nation. If a man threatens to kill another man, and he has sufficient reason to believe that the man will carry out his threat, the law makes it justifiable for him to kill that man. Now, when men and women band themselves together and declare their determination to destroy the rulers of a free country; to beat down the laws; to drive order away and bring chaos, it seems to us that in the very nature of things a nation that permits them to go on is guilty of a criminal act. We would not kill them, but whenever they open their foul mouths we would arrest them; we would try them; if found guilty, we would imprison them; we would put them where they could do no harm; we would compel them to study mathematics and physics and history and law for four hours a day, and we would keep them there until they would become harmless either through reform or through old age.

It is an outrage to let such wild beasts prey upon the American people. It is an outrage to permit these wretches to write to brother wretches in the old world that this is a land of freedom in their sense, which means license and a good place to go to.

While we would arrest, try, convict, if possible, and punish these poor creatures, at the same time we would keep in mind that they are the product of ignorance, of cruelty, of ages of oppression, and so we would only be harsh enough with them to protect innocent people from their devices and would try to change the order of their minds and be careful to keep them restrained until they did change, or until, through age, they became harmless. There is more need of confining a woman like Emma Goldman than there is a man. She ought to be put away where her views cannot be heard and where, above all things else, she never by any possibility can become a mother. Her race ought to stop with her, and the race of every woman like her ought to stop with her. They are monstrosities that have grown upon the public as a fungus grows in the darkness and in the filth, and the nation that does not protect itself against them is untrue to its own people.

Judge Dennis of Tonopah says: that \$80,000 has been deposited in an account in Tonopah that will be used for the express purpose of electing T. L. Oddie United States Senator, and that he, Dennis, will handle the fight.—Reno Journal.

OBJECT TO THE BONUS SYSTEM

PITTSBURG, April 21.—Holders of common stock of the United States Steel Corporation have demanded the abolition of the bonus system by which annually many officials, from President W. E. Corey down to the superintendents of mills, have received immense sums in aggregate, in addition to their regular salaries. The demand of the common stockholders will be thrashed out at the annual meeting of the corporation in New York tomorrow. It is believed the bonus system will not be included in the budget of expenditures any longer. The holders of the common stock have demanded a return to their old 4 per cent annual dividend as soon as possible, and want earnings used for dividends instead of bonuses.

It appears from the sixth annual report of the steel corporation that in 1907 there was paid out in bonuses to presidents, managers, officers and superintendents more than \$4,000,000. In the last five years there has been paid out in bonuses about \$11,375,000. While this was being paid, the dividend on the common stock was cut from 4 per cent to 2 per cent, where it yet remains.

CORTLEYOU WAS GUEST.

(By Associated Press)
SYRACUSE, N. Y., April 21.—Secretary of the Treasury George Cortleyou was the guest of honor and the principal speaker at a banquet of the Syracuse Chamber of Commerce this evening. Nearly 300 business men were present and gave Secretary Cortleyou an enthusiastic reception.

ASSAILS RACE TRACK GAMBLING

NEW YORK, April 21.—A remarkable demonstration against racetrack gambling, which at times assumed the form of a personal tribute to Governor Hughes, was made in Brooklyn today. The demonstration was begun in the streets leading to the Bedford branch of the Young Men's Christian Association, where the Governor was announced to address an anti-race track gambling meeting, and attended the speaker from his carriage to the platform of the spacious hall. The mass meeting was a non-sectarian affair for men.

Governor Hughes spoke briefly, setting forth the unconstitutionality of the present racing situation and warning his auditors that upon them as citizens devolved the responsibility of seeing to it that the State constitution was kept inviolate. He referred to the charge that his official conduct regarding the situation had taken the form of "legislative usurpation."

"Well," he added, "I never will support a measure that I cannot openly and directly discuss with the people."

The audience adopted resolutions denouncing the Percy-Gray act, which makes race track gambling possible.

WORKING FOR SON'S ELECTION.

LONDON, April 21.—Mrs. Cornwallis West, mother of Winston Churchill, is very active among the doubtful electors in Manchester, working for her son's election.

Location notices 1 triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

SPARKLING BURGUNDY WINE—Qts. \$1.25; finest from Cal.; pts. 75c

SOUTHERN NEVADA MERCANTILE COMPANY

HART DISTRICT IN FINE CONDITION

NEW STRIKES ARE MADE DAILY IN THE THIRTY-FOUR LEASES.

(Special to the Bonanza.)
HART, Cal., April 21.—After three months active development work in the Hart district conditions here have been constantly improving, and today the camp has every promise of becoming one of the most prosperous in the West. New strikes are made daily in the thirty-four leases and mining companies operating in the district. Several large companies have begun work on an extensive scale. The new hoist for the Quartette shaft was installed the first of the week, and the shaft is going down in record time with three shifts at work.

The quartz mill for the Big Chief Company is now on the ground, and its erection is being rushed to completion. The Quartette company will also build a mill as soon as water is developed on their property.

The Big Chief lease is working in four feet of \$50 ore in its shaft, while a blind lead was uncovered in the tunnel which is being driven from the west side of the mountain on its leasehold. The vein is two feet in width, and is of a good milling grade. The upper tunnel is in 130 feet and the ledge is now being cut, the values being around \$20 at the present stage of development.

The Sloan lease is working in 30 feet of ore, a portion of which averages \$50 per ton. Nearly three hundred sacks of high grade is now piled on the dump, and the lessee is preparing to make a shipment.

After crosscutting three feet from the 50-foot shaft, which was sunk 30 feet from the mouth of the tunnel, the lessees on Plute Belle No. 1 broke into four feet of good milling ore, averaging \$25 per ton. The entire face of the drift pans colors an inch long. Andrews & Marsh are the lessees of this block.

J. D. Goodwin has made a rich strike on the Sunrise. At a depth of 50 feet a crosscut was run last week, and last Sunday five feet of \$30 ore was showing in the face. The Sunrise is located a mile and a half from camp, which widens the district in a northwesterly direction for the distance above stated.

The Hart Consolidated Mining Company will begin operations next week. The company owns the northern extension of the Oro Belle group, where Hart and Hitt made their original strike. The tunnel on the Oro Belle No. 1 has reached a distance of 125 feet.

DIAMOND QUEEN DISTRICT ACTIVE

Tom Devine, deputy assessor for Beatty, Amargosa and Johnnie, came up from the south yesterday. Mr. Devine reports the southern country quite active, especially at the Diamond Queen district, about ten miles east of Beatty. There are about twenty leases in that district and all of them have good showings. One of the leases made a shipment of ore yesterday and it is expected that before long numerous other shipments will be made.

ARTIFICIAL RESPIRATION.

WASHINGTON, April 21.—George Poe of Norfolk, Va., has patented an artificial respiration machine by means of which he hopes to resuscitate lifeless bodies.

Try our four year old port and sherry wines at \$2.00 per gallon. H. J. Hall & Co.

BONANZA BINDERY

Round Mountain Antelope Leasing Co.

Owens the Bartlett-Travers Lease on the Famous Antelope Claim at Round Mountain. The Lease Has Two Years to Run

THIS IS A SECOND GOLDFIELD MOHAWK

Two Ledges Have Been Encountered on the Property and a Shaft is Down 65 Feet

We are offering 50,000 shares only of the Treasury Stock of this company at 12 1/2 cents per share to raise money with which to continue the development work.

The sensational strike made on the Paulsen-Blaisdell ground adjoins this lease. The strike was made ONLY THIRTY FEET FROM OUR SIDE LINE, and according to surveys and the trend of the ledge IT WILL TRAVERSE OUR GROUND FOR A DISTANCE OF 800 FEET. This ledge, 2 1/2 feet wide, is phenomenally rich and eight inches of it contains specimen or picture ore that will run into the thousands of dollars to the ton, the balance averaging about \$200 to the ton. There is a custom mill within a mile of the property that will treat our ore for \$8 per ton, thus insuring a big profit. The officers and directors of the company are men of the highest standing in Nevada. Henry J. Bartlett, owner of the Round Mountain Nugget and heavily interested in different Round Mountain properties; James W. Travers, a pioneer of the district and also heavily interested in many properties there, and Mr. Gibbons, a well-known Tonopah attorney, while Messrs. Hertel and Price are men prominent in the mining industry of the state.
